AMERICAN CREAM SOAP COMPANY,

Incorporated by Act of the Legislature of the State of New York, and secured by Letters Patent under the LAWS OF THE U. STATES, A. D. 1851.

CHAS. W. DENNISTON & CO.

PROPRIETORS FOR THE STATE OF MAINE,

C. W. D. & CO. are now prepared to manufacture and offer to the trade and consumers the Soaps of the American Cream Soap Co., in all their varieties, at their Factory,

Nos. 3 & 33 UNION STS., Portland, Me.,

CONSISTING OF

American Cream Soap in Bars Laundry and Manufacturers' in Barrels and Casks, Toilet, Shaving, Shaving Cream, Transparent, Cream Soap Preparation, &c., &c.

These Soaps are presented to the public, after having been thoroughly tested by ourselves and friends, as the best Labor Saving Articles ever discovered, and we offer them to the public as every way worthy of their confidence.

Using the week of the Laundry in simply warm water, with a Soft, Hard, or SALTS dissolving with Boiling or Pounding and the Washboard—consequently a large amount of Fuel and wear and tear of clothing is saved, and not one fourth the amount of labor is required to do the washing of a family. A trial of these Soaps is to satisfy the clothes, and lessen the hold of the dirt, without injury. Washing is done by simply rubbing the Soap on the parts of clothes most soiled, and placing them in warm suds sufficient to cover them—these let remain a few hours, (or all night, if convenient,) then, with a slight handrubbing and good rinsing, they will be perfectly clean, and without injury to the most delicate fabric. Merinoes, Silks, Shawls, &c., may be washed with perfect safety. Cotton Goods, Prints of any color that will fade in water alone, when washed with these Soaps, according to the direction, will not change but remain firm, and the colors need more brilliant. For washing Woollens, Prints, Hdkfs, Mirrors, Maps, Paintings, Lamps, Silver Ware, &c., &c., these Soaps are superior to any in the market. The cost of these Soaps is no more than of those ordinarily used; and besides the, the great ease and cost of clothing consequent upon the old method of hard rubbing upon a board, machine, pounding barrel, &c., &c. and the necessity of boiling, is wholly avoided.

We ask for this Soap a fair trial, of resting to trial to its own merits rather than rely on the publication of a long list of certificates from those who have used it, however it can be manufactured, which we have in our power to do were it necessary.

For sale, Wholesale only at 31 & 33 Union Street Port and, and retail, by Grocers generally in city and country. Agents supplied on liberal terms. All orders addressed to C. W. D. & Co., postpaid, Nos. 3, & 33 Union Street, Portland, Me. will receive prompt attention.

NEW ENGLAND TRUSS MANUFACTORY.

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Retort and Spiral Trusses,

633 (opposite 511) Washington Street, 633.

BOSTON, MASS.

ALL the various approved TRUSSES constantly on hand.

Ladies waited upon by Mrs. Caroline D Foster, who has had *twenty years'* experience in the business.

He will keep a full supply of ready-made Trusses for Gentlemen and Ladies, Truths and Infants—Abdominal Supporters of five or six different kinds, such as Hulls, Chapin's Spiral, Cutter's, Finch's, Ingalls', &c., &c.

TESTIMONIALS.

The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but will suit forever

Boston, Jan 5, 1853.

Having had occasion to observe that many persons afflicted with Hernia, have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster to supply the defects that are endowed by the death of Mr. Beath—After some months of observation of his work, I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a man well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the favor of the community of those who are unhappily afflicted with Rupture, Mr. James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. He have employed him (some of us over twenty years) and therefore speak from personal knowledge of his abilities. His early advantages, his long experience, in the business, and the large number of individuals whom he has relieved in a variety of cases, render him, in our opinion, equal, if not superior, to any manufacturer of the article. His father, Dea. Gideon Foster, of Charlestown, was maker of the Post-house in that town for upwards of twenty-four years, during which period Mr. Foster evinced much of the ingenuity, and made applications of Trusses in a great variety of cases, with great success, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss, that the great excellence consists in its adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a Truss, but none but a skilful practitioner can apply it in such a manner as effectually, and oftentimes literally cure the complaint.

Our experience has convinced us that Mr. Foster has thoroughly examined this branch of science. The certificate of Dr. J. C. Warren, and other eminent surgeons, which he has shown to us, fully confirm the opinion we have expressed.

SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements, but let me exhaust them nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them in a very great degree, from the exorbitant and fatiguing labor of *Ironing*, has also being a great saving of time and expense. This from combined economy, convenience, saving of labor, and despatch; one cent's worth of dry charcoal—applies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose) It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

WHIG NOMINATION.

FOR GOVERNOR,

ISAAC REED,

OF WALDOBORO.

STATE TEMPERANCE CONVENTION. This Convention assembled at Portland, on the 6th and was numerously attended. The proceedings of the first day, as published by the Advertiser, were preliminary. We give them below, and shall endeavor to furnish the remainder in our next.

The meeting was called to order by Rev. Mr. Peck, upon whose nomination H. A. Jones, Esq., of Portland, was chosen temporary chairman, and G. F. Ayer, Esq., temporary secretary.

Rev. Dr. Shaler, of the Federal-street Baptist church, on being called, addressed the throne of grace in a fervent and appropriate prayer.

The chairman said that he had not at hand a paper containing the call for the meeting, and Rev. Mr. Peck stated in effect, that one of the objects was to concert measures to elect to office persons who will sustain and carry out the Maine Law, and on his motion, a committee of nine was chosen to report with reference to the permanent organization of the convention, viz: Messrs. Wells of York county, Wilson of Lincoln, Munger of Cumberland, Perry of Oxford, Westberly of Hancock, Downes of Washington, Cochran of Kennebec, Drummond of Penobscot, and Davis of Waldo.

A committee was chosen to prepare business for the convention, viz: Messrs. Davis of Belfast, Peck of Portland, Kellock of Rockland, Eaton of Readfield, Downes of Calais, Bourne of Kennebunk, Richmond of Richland, Perry of Oxford, and Allen of Biddeford.

The audience were then entertained by a speech from Rev. Mr. Thompson of Waipole, Miss., and in turn by Woodbury Davis, Esq., of Belfast, who in closing his remarks, offered a series of resolutions, one of which endorsed the nomination of Hon. Anson P. Morrill, as a candidate for Governor. These resolutions were referred to the business committee.

Rev. Mr. Brewster of Lowell, Mass., and Rev. Mr. Spalding of New Hampshire, also addressed the Assembly, followed by Gen. Perry of Oxford county, who kept his hearers in good humor by his sharp witticisms for half an hour or so, when the meeting adjourned till 9 o'clock Thursday morning.

The Augusta papers contain full accounts of the celebration on the Fourth, which appears to have given universal satisfaction. A goodly number of the "sons and daughters" assembled to grace the occasion, and to interchange their greetings and reminiscences of "auld lang syne," —and a large concourse of strangers were present, as witnesses and participators of the festal occasion. The oration by Judge Weston we have before spoken of. It is to be published, and will form a valuable addition to the historical collections of the State. The Floral Procession was the most beautiful feature of the day.

A. Staples, Esq. acted as Marshal of the day, and Hon. Samuel Cony, Mayor of the city, presided at the dinner table. The numerous sentiments and speeches had the proper sparkle for the occasion. We have no room to go into details, but will append a single sentiment given by our poetical young townsman, Melville W. Fuller, Esq., who was called upon:

> Thanks for your call, and let the kindness teach
> An equal ardor in my answering speech,
> In which I promise, if such praise I ought,
> The soul of wit, since 'tis all be very short.
> I am and not less, the oldest adage is
> A maxim shown a nullity by this.
> A spit more acceptable has served for you—
> The old wine drunk, you're tasting with the new.
> Rhymes when delivered from the speaker's stand,
> The Poet's maxim and hatred would demand,
> But hers are offered in the odious form,
> Shipped in like sentiments with the nuts and wine.
> For where's the mortal of expansive mind
> Would accept Parnassus if asking after,
> Or ask the end of Pegasus' long weary ages
> Waiff imports night on Cockloft's garret,
> Though inside Phœbus scarce pls could stir it,
> Since overcasting always brings a sneeze,
> Before the fire these spark lings eyes can soar,
> Imagine myself I cannot choose but sweat,
> Though by that flame however fire prone,
> The year I suffer can't be too sedate.
> Woman! the sun and universal theme
> Of ancient song and of bards to-day—
> Woman! whose power, until the hour be still,
> Makes of her masters slaves but to her will.
> How at the sound the thoughts come thronging back
> All single out life's half forgotten track,
> Or life, with still some radiance that fades,
> A glorious sunlight on the future throws.
> Like wine things from childhood's earliest hour,
> Round us the sacred ages of her power.
> Friend, sister, Mother, dearest still, and Wife,
> The sole, support and solace of our life.
> She shares each hope, each buffet and each fear,
> Shades it all our joy, and grants our first tear.
> To she who lingers o'er the bed of pain,
> And wins us all one back to life again,
> Or, at the last, the death bed, still in tears,
> Bowing the form in mute our earnest prayer,
> Forming the way that slumbered may have trod—
> The glorious path to Heaven and to God.

The playing of the engines at the prize trial, is reported as follows:

Waterville No. 3, of Waterville (Button tub) played 190 feet.

Fire King of Gardiner, (Hunneman tub) played 165 feet nine inches.

Tiger of Hallowell (Hunneman tub) played 151 feet three inches.

The Atlantic No. 3, of Augusta (Button tub) played 194 feet 10 inches. This tub did not compete for the prizes, the arrangements precluding. All the machines played through 200 feet of hose.

"He never was beat!" is the cry of the supporters of Mr. Parris for Governor, and they depend upon that to insure a ready return for their investment. But they should remember that every man who continues in the receipt of fat things all his life long, especially if he has attained the age of three score and ten, may meet with a reverse of fortune at last. And so with Mr. Parris; he has been brought out as a *dernier resort*, and from the nature of circumstances, it seems to us, upon the doctrine of compensations, that he *must* be beat this once for all. So gentlemen, don't trust too much to the old sag's luck.

The gross earnings of the Androscoggin and Kennebec Railroad for the past year, are stated at $181,321. Running expenses $87,850.

MR. REED'S ACCEPTANCE.—We copy the following correspondence which has just been made public—wherein Mr. Reed accepts the Whig nomination upon the platform of the Convention:

KENNEBUNK, June 30 1854.

To the Hon. Isaac Reed:

At the Whig State Convention held at Portland, June 29, 1854 the following resolution was unanimously adopted:

Resolved, That confiding in the ability, experience and integrity of Hon. Isaac Reed of Waldoboro', we cheerfully recommend him to the unanimous support of the Whig party of this State, and we will use its honorable means to secure his election.

Let me assure you, sir, I am with no ordinary degree of gratification I communicate to you the above resolution, by order of the Convention. Trusting that the Electors of Maine will ratify the election on the second Monday of September next, and elevate their chosen standard bearer to a position of which he is so well worthy.

I am, most respectfully, your ob't servant.

HOLACE PORTER,
President of the Convention.

WALDOBORO', July 3d, 1854.

Dear Sir—I acknowledge the receipt of your letter informing me of my nomination by the Whig State Convention, at Portland, on the 29th ult, as a Candidate for Governor at the approaching election. I act on the side of the honor conferred by a nomination from so large and respectable portion of my fellow citizens.

The platform adopted by the Convention, meets my full and cordial approval.

I am opposed to the extension of Slavery, under any and all circumstances and conditions and to any and all compromises by which human liberty and the rights of man are violated.

I am not of the number of those who believe that this government was instituted to foster, extend and perpetuate slavery.

I am opposed to the repeal or essential modification of any of the constitutional provisions of the Maine Law, in favor of its judicious enforcement, and experience shall demonstrate that it is ineffectual or unwise.

In accepting the nomination, so unexpectedly tendered, I assure you, sir, though you, the members of the Convention, that, under all circumstances, I shall regard the platform adopted by the Whig of this state, as inviolable.

With sentiments of personal regard, I am, very respectfully, your ob't servant,

ISAAC REED.

Hon. HORACE PORTER, President of Whig State Convention.

The Fourth, (as we learn from the Mercury) was celebrated at Bradford, by an excellent temperance address by Josiah Lovejoy, Esq., of Oxford county; and an anti-Nebraska speech of great power, by Rev. L. Tejoy of Bangor.

At Dexter, an oration was delivered to some 3000 people by Josiah Crosby, Esq., and there was a fine display of fire-works in the evening during which Senator Douglas was burned in effigy.

At Monson there was also a very large gathering.

At East Livermore, where John P. Hale was one of the speakers, it is estimated that eight or ten thousand persons were present.

DEATH OF MISS HAUD. The terrible accident in this city, by the explosion of burning fluid, which we chronicled yesterday morning, soon after it occurred, resulted in the death of Miss Haud, who survived her terrible sufferings but a few hours. She was skillfully attended by Drs. Morrison and Sawyer, who strove to alleviate her sufferings, but there was no possibility of saving her life. The whole upper portion of her body was so deeply burned that the flesh came away in her struggles.

This case adds another to the many impressive warnings against the careless use of burning fluid.

POEMS, TALES AND ESSAYS, by Oliver Goldsmith, M. B.; with a critical dissertation on his Poetry, by John Aikin, M. D., and an Introductory Essay, by Henry T. Tuckerman, Esq. Boston: Phillips, Sampson & Co. 1854.

This excellent selection from the works of Goldsmith is published in the attractive form and readable type as uniformly given by the enterprising public houses and it will be found a valuable addition to every library. The introduction, by Tuckerman, is a very discriminating and interesting notice of the celebrated author's life, failings and peculiarities, and will be read with avidity; and the criticism by Dr. Aikin will have peculiar interest to literary men.

The book is for sale by D. F. Duren.

Brd Littlefield, of the Skowhegan Clarion, has been presented with a cucumber and an onion of that year's growth. The latter, we presume, is to assist him in mourning over the prospects of the "regular" democracy.

The silver prize trumpet at the Brunswick celebration, was awarded to the "Androscoggin" fire company of Topsham.

No. 6 of Martin Merivale's his X Mark, may be had at Mr. Duren's Bookstore.

NEW HAMPSHIRE. The Anti-Nebraska resolutions were passed on the 5th, by the House—and thus the confirmation of Mr. Pierce's administration, by his own state, is complete.

The first resolution celebrating the principle promulgated in 1850 by the House declaring against the introduction of slavery into free territory, and of the creation of any territory without its prohibition, was put to vote and adopted by 160 to 118.

The second resolution passed by 163 to 119. It deprecated the repeal of the Missouri Compromise.

The third resolution, approving the course of Messrs. Kittredge and Morrison, in Congress, in voting against the Nebraska Bill, passed 158 to 110.

The fourth resolution, which disapproves of the conduct of Senator Norris and Williams, and Mr. Hibbard, was also carried by a vote of 152 to 117.

In Baltimore a Hebrew woman, who was supposed to be dead was dressed in her shroud placed in her coffin and the lid was screwed down, when it was discovered that life was not extinct. All present immediately gathered round the coffin, and the unbounded, corpse-like form arose from her narrow bed, embraced her children and relatives with all the fervor of renewed life. To all appearance she became convalescent, and subsequently partook of food. She remained in this condition until the approach of night, when she tottered to the bed, and in a few moments breathed her last.

(For the Whig and Courier.)

NEWBURYPORT CELEBRATION. In response to the invitation of the citizens, the ladies and the public authorities of the city of Newburyport, embracing West Newbury and Newbury, the sons and daughters and former residents of that beautiful town assembled there on the 4th of July, to unite in a celebration of the glorious anniversary of the inauguration of Liberty in our land.

The number that returned to the place of their birth and the home of their childhood was very large—some of them having been absent for fifty years. It was a noble gathering from all parts of our country, and in which most of the cities were honorably represented. The reception was warm and cordial. The town seemed to have been replenished and scraped and brushed and dusted in every part, and although always cleanly and beautiful, appeared superlatively neat and attractive.

There were frequent and hearty greetings by men in the noon of life, who had not before met since school-boy days, and the faces, the names of Jacob and John, Richard and Joe and Tom floated on to the tide of the heart and found the ready exhalation of the bright days of youth. They had separated for distant points and had struggled in the battle of life in the midst of the world's lust and din, until now brought together by the kindly summons of their old mother, the town, to witness her prospects under her city nuptials. Many wise the re-unions, and most grateful and happy recognitions of men from all the professions and callings of life.

The public demonstrations were upon a liberal scale, and great skill and taste were shown in giving expression to the public welcome to the sons and daughters, and of the appreciation of their honorable efforts, and their public and private regulation in their places of residence. Wide expanded arches were erected over the highways, wreathed with flowers and bearing words of welcome and of cheer, which touched the heart by their delicacy and their force, and the many tender associations which they awakened.

The public celebration of the day was planned and conducted upon a scale of great magnificence, and had it not been for the melting fervor of the sun, the procession would have been one of the largest and most interesting ever witnessed in New England. The exercises at the Church were of a high order, and the oration happily adapted to the occasion and of deep interest to those who listened to its delivery.

The public dinner was simple and spread beneath a multitude of tents and made highly attractive. Some twelve hundred persons sat down to the feast.

The intellectual repast was highly relished, and the toasts were several responded to by gentlemen who were called upon by the Mayor of the city, who presided at the table with uncommon skill. Among the gentlemen there called upon were Rev. S. L. Caldwell and John S. Sayward, Esq., of Bangor. The former spoke of the occasion and the latter of the State of Maine, which had been referred to in a toast.

In the evening, there was a rich and exceedingly brilliant display of fire works, which was witnessed by a larger number of persons, probably, than ever before congregated in one company in the city. At the close of this display, a grand levee was held at the City Hall, and nearly the whole night was spent in pleasant interchange and in the agreeable amusement of dancing.

On the succeeding day a meeting for mutual congratulations was held at the City Hall.—Parties were arranged for visiting Plum Island, a favorite watering place, and other points of attraction.

This is but a brief notice of a celebration a full account of which would occupy several entire sheets. Those who would preserve a full record, should secure a copy of the Newburyport Weekly Herald, or perhaps better still, the publishers of that paper would do well to publish it as a whole in a pamphlet.

THE WRECK OF THE BOSTON SHIPS.—The following additional particulars are given by the Boston Journal, of the collision of the Trade Wind and Olympus, off Cape Sable 26th ult:

The Trade Wind was stove, and she filled within half an hour after the collision. Ten of the crew of the Olympus, the Captain and 37 passengers, were saved and the Captain of the Trade Wind, sixteen of her crew, and all of her passengers. This shows the loss of the Olympus to be three passengers and three of her crew. Eighteen of the Trade Wind's crew perished. The saved from each ship were taken off by the Belgian barque Strad, which arrived off Block Island yesterday morning.

Capts. Wallace and Smith hired a fishing smack, and having got on board the steamer the State, arrived in this city last evening.—The Trade Wind was one of the finest clippers ever built in this city, of 2000 tons, about three years old, valued at $100,000, and largely insured in Wall street. Her freight is valued at $50,000, and her cargo at about $250 000, the latter being principally insured in England. The Trade Wind was owned by W Platt & Son of Philadelphia, and Booth & Edgar, and others, of New York.

A writer in the Ohio Farmer strongly recommends the farming people to raise Canary seed, which is said to do an operation attended with no more trouble than the culture of oats. Now that mother and Ann Eliza must keep a Canary bird or two, what is the use of paying ten cents a pound for seed, when it can be raised from a man's own ground, and be found an excellent food for horses? The head is large and heavy, resembling millet.

IMPORTANT AND SEASONABLE INQUIRY. In New Orleans, it is the usual practice to throw up rejected manuscript to the dogs. We find the following inquiry and answer in the last Creole:

Mr. Editor: That what I wish to ask you is weather stitchine wot the poleece gives to dogs wont preen the heuman hous after assassingem has been bite. Plese to put in the paper how this is, for if frite stitchin no is prizen, I go agin assassingers. Yours tel. pizened.

A ALLEN BOY.

The inquiry, though orthographically incorrect, is morally important, and has, doubtless, here this, occupied the attention of the city fathers.

Speaking of rail-road facilities, a writer in the Independent says:—"It makes little matter now, where a man lives. He is close by everywhere."

Varieties.

Monument to Putnam. The Connecticut Legislature has appropriated $3000 to aid in the erection at Brooklyn, of a monument to Gen Israel Putnam, provided an equal sum be raised by subscription.

A surveyor out in Oregon, not liking the appearance of some of the land, breaks out as follows:—"I think the United States ought to make Great Britain take it all back, or fight. Thank God, we did not get up to 54 40; 49 is bad enough."

"Small Beer" for one. A tipsy Scotch laborer carried in his hand a bottle of "fire water" with which to keep himself warm and moist. A fellow-traveller, wishing to poke a little fun at him, asked him what he had got in his bottle. "Small beer," was the answer. "Walk," said the other, "if it's small beer, I'll share it with you." "No," answered Sawney, "it's *too small for two*."

The young lady with "speaking eyes" has become quite hoarse, in consequence of using them so much.

Referring to the newspaper paragraph that the 'Know Nothings had swept Norfolk," the Evening Post says if they would only "sweep" N. York, they might carry the Mayor and all other Municipal officers without opposition.

A Bohemian agricultural artist has successfully introduced a new mode of planting. Instead of using the process of grafting, he takes an offshoot of any fruit tree,—an apple tree, for instance,—and places it in a potatoe, both being carefully placed in the soil, so that five or six inches of the shoot shall be above the ground. This latter takes root, grows with rapidity, and produces the finest of fruit.

KOSSUTH ON EUROPEAN AFFAIRS. The speech of Louis Kossuth, lately delivered at Sheffield, England, has been very generally commented upon by the press of both sentiments. It favored the nationality of Poland; carrying, of course, the inference of argumentative application to his own country—Hungary. Alluding to the universal opinion entertained in England that Russia had grown dangerous to the freedom of Europe, and that she must be checked in her encroachments upon the independence of nations, he threw out a warning that unless diplomatists and politicians were called upon to define what they meant by "the freedom of Europe" and state in what manner they intended to check the power of Russia, it would in the end be discovered that English blood had been shed, and millions of England's money spent, in producing a result quite the contrary of what was expected. He contended that either there was no sincerity in the profession, or no political meaning in the cause, that Turkey is to be maintained as necessary to the peace of Europe and Russia to be checked, without Poland being at the same time reconstructed an independent nation, and Hungary made independent and free. These aims, he said, would be entirely subverted by England taking Austria for her ally, and that a lasting peace could only be secured without Poland, Hungary and Italy being restored to their national rights.

The London *Times* regards this declaration of Kossuth as sufficient evidence of the identity of the interests of the revolutionary party in Europe with those of Russia. Those very wrongs of which M. Kossuth complains—the partition of Poland and the subjugation of Hungary—it says, are mainly attributable to the preponderance of Russian counsels over the real interests of the Russian Empire.—That if the allied powers of Europe could succeed in detaching Austria from Russia and Russia's policy, the chief antagonist of liberal opinion in Europe would be checked in his designs. It accuses Kossuth of a leaning to gratify his own vindictiveness against Austria.—It adds—

"No doubt the disappointment and mortification of M. Kossuth and his accomplices are extremely great at such a destruction of their hopes. They had confidently relied on the patronage of hostilities to set the world in flames and to spread all over the continent the horrors of revolutionary war. For this purpose it was essential not only that Austria should be the object of their attacks, but that France and England should be leagued against her, and prepared to favor the internal disruption of the empire. But the result has shown that their expectations were as futile and their information as incorrect on this point as they have proved to be on so many others. Nothing remains to these disbanded soldiers of sedition but to attack themselves openly to the service of the Emperor of Russia, who will probably not despise their assistance; while their absurd and unmeaning threats against the alliance of the four greatest powers in Europe are the best proof that the connection of Austria with England and France has, in reality, disarmed and deterred the bitterest of her enemies."

Notes Curing Remedy.—Among the immense number of patent medicines dispersed, there are but very few that possess any real merit. Of this latter class the discovery of a Polish physician, a celebrated English physician, may be ranked among the last both on account of the character of the ingredients of which the medicines are composed, and the variety of diseases which have been effectually removed by their use. The Purifier has established a home in 38 Ann street, for the sale of the same throughout the Union, where parties may be supplied with them at wholesale.—New York National Intelligencer.

CITY OF BANGOR.

An Ordinance concerning Truant Children.

SECT. 1. Be it ordained by the Mayor, Aldermen, and Common Council of the City of Bangor, in City Council assembled; That the City of Bangor hereby avails itself of, and adopts the provisions of the fourteenth section in Article First of an Act to provide for the education of youth, passed in the year 1850.

SECT. 2. Be it further ordained, That all children between the ages of six and fifteen years, residing in the city of Bangor, and not attending any school, without any regular and lawful occupation, and growing up in ignorance, shall, unless there be some sufficient reason to the contrary, be required regularly to attend some public or private school, or suitable institution of instruction.

SECT. 3. Be it further ordained, That all children in said city, between said ages, and all persons attending any of the public schools in said city, who shall be habitual truants therefrom, shall be liable to pay a sum not less than one nor more than twenty dollars, upon conviction of either of the offences described in this ordinance.

SECT. 4. Be it further ordained, That every person belonging to any of the public schools in said city, who shall, without sufficient excuse therefor, be absent from said school, six or more times in the course of any one term, shall, for the purposes of this ordinance, be deemed and taken to be habitual truants therefrom.

SECT. 5. Be it further ordained, That any person belonging to any of the public schools in said city, or any child between the ages of six and fifteen years, being found by either of the persons who shall be appointed under the provisions of the fifteenth section in Article First of said Act, to make complaints and carry into execution judgments for violations of this ordinance, during school hours, in or near any street, square, lane, wharf, or any public place of resort or amusement in said city, may be apprehended and taken by said person apprehending said scholar to such public school in said city as he may deem proper; and shall there be detained as a scholar by the teacher of said school during school hours, and notice of such apprehension and detention shall forthwith be given to the parent, master or guardian of the person or child so taken and detained; every person or child so apprehended, shall for the first offence be liable to pay a sum not less than one dollar nor more than twenty dollars.

SECT. 6. Be it further ordained, That in place of the penalties and imprisonment, the judicial officer who has jurisdiction thereof, may order the offender to be placed, for such periods of time as he may judge expedient, in the Work-House of the city of Bangor, which is hereby assigned and provided as the institution of instruction, house of reformation, or suitable situation named in the sixteenth section in Article First in the Act aforesaid.

SECT. 7. Be it further ordained, That the City Council of said city, on the fourth Monday of March annually, or as soon thereafter as may be convenient, shall appoint three persons, who alone shall be authorized to make the complaints in every case of the violation of this ordinance, and shall alone have authority to carry into execution the judgment of the Judge or Justice or other judicial officer, and shall execute all other duties required by this ordinance.

SECT. 8. Be it further ordained, That if any person shall be in, upon, or near the premises upon which a school house is situated, or in or upon any street near such school-house, selling candy, fruit, or other articles to any pupil or other person, he shall be liable to a penalty not exceeding five dollars for each offence; *provided* that nothing in this section shall be construed to prohibit any person from selling articles in his own store or shop.

SECT. 9 Be it further ordained, That all penalties and fines for the violation of the provisions of this ordinance, shall be recovered by complaints by said three persons named above, before the Police Court within and for the city of Bangor. *Provided*, this ordinance shall not take effect and be in force until it shall have been approved by the Supreme Judicial Court to be holden at Bangor in and for the County of Penobscot.

WASHINGTON, July 7.

SENATE. Mr. Allen presented resolutions of the Legislature of Rhode Island, on slavery—against the Nebraska bill, the fugitive slave law and the acquisition of new territory.

Mr. Stuart moved to reconsider the vote adopting the report of the conference committee fixing on the 4th of August for adjournment. The Chair, (Mr. Badger,) decided the motion out of order.

HOUSE. The Speaker stated the first business in order was the motion to reconsider the vote by which the House yesterday rejected the general Appropriation Bill.

Mr. Orr said the action in rejecting the bill did not excite any great surprise in his mind. He had no doubt it was produced by the incorporation in the bill of five, six or seven hundred thousand dollars for certain custom houses. He was opposed to the bill, but voted for it on account of pressing public necessities. After consultation he proposed that some one who voted for the custom house appropriations shall move to reconsider the vote on it.

The House reconsidered the vote rejecting the bill by 84 against 69. The question returned on agreeing to the amendments appropriating $321,000 for the completion of custom houses.

Mr. Preston moved the previous question and the amendments were again agreed to by a majority, and the bill passed, 93 to 67.

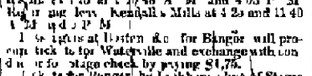
KENNEDY'S



The Greatest of the Age!

DR. DONALD KENNEDY of Roxbury has discovered a remedy, one of our rare combinations, wonderfully naturals. FIRE WEED OF HUDSON, from the forests of which he obtains it, a compound Pimples he has tried it in over eleven hundred cases and never failed except in five. He has now in his possession one or two hundred certificates of its value all within twenty miles of Boston

Five Bottles are warranted to cure a diseased sore mouth

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the worst form of Boils.

Two bottles are warranted to cure running sore in the mouth and throat.

Three bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ring worm

Two to three bottles are warranted to cure the most desperate cases of rheumatism

Three to six bottles are warranted to cure salt rheum

Five to eight bottles will cure the very worst case of Scrofula.

As this is always experienced from the first bottle use, a perfect cure warranted when the above quantity is taken

No one looks so improbable to those who have not had the wonderful medicinal effects of the Sea Weed, growing upon the pastures, and along old stone walls, should cure every humor in the system yet it is now a fixed fact—If you have a tumor it has to start. There is no sore unless cancer, among some cases, but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. He has already done more of the greatest cures ever done in Massachusetts. People, the children a year old, to old people of ninety, and has seen many looking children, whose flesh was soft and flabby, restored to perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and bronchitis. Some who have taken it have been cured so for years, and have been regularly tied by it. Where the body is sound, works quite easy, but where there is any derangement of the functions of nature, it will cause very angular feelings, yet you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel like a new person. I have sent a few of the most extravagant encomiums that ever man listened to.

No charge of doctors' bills. Try it the best you can get, and cough it off.

Roxbury, Sept 9, 1853.
